

John,

As soon as the agreement became effective, I changed the code 38 to allow conductors/trainmen to claim it. They can claim it from the miscellaneous claims screen (the 03 screen.)

Thank you,

Jennifer,

This claim needs to be opened up for conductors/trainmen as our agreements read the same - Article 50, Q&A 3 (page 119 of the 2010 UTU CSRA.)

Please advise

Thanks,

John

Thanks in advance for your assistance

Subject: Code 38

John,

Just talked to the a009 and they are making them go get a revenue train on the law. He said the computer won't take a code 38 for the conductor and brakeman. Only the engineer can claim it. What do they need to do?
